Subject - Regarding permission for an industrial visit.

Respected sir,

With reference to above subject, I the undersigned, request you to grant us permission for a one day industrial visit on date 08/04/2023. Our institute is affiliated to MSBTE and as per the syllabus; our first year Diploma students (All branches) are interested to visit your reputed firm.

It will be wonderful experience for our students to have the visit so that they can get more practical knowledge by interacting with your project. Hereby attached the list of Names of Students and Staff who will be visiting to your firm. Hoping for your co-operation and kindly convey the schedule of the visit.

Thanking you.

Yours faithfully,

Number of Students- 40
Number of Staff- 05

Industrial Visit Report

Date: April 10, 2023

To,

The Principal

SSIET (Polytechnic), Ghogaon

From: Mr. Sawant Laxman, Industrial Visit Incharge

Subject: Industrial Visit Report

Introduction:

A group of 40 diploma students from the First Year Diploma department of SSIET (Polytechnic) College, accompanied by three faculty members, recently conducted an industrial visit to nearby places as part of their curriculum. The objective of the visit was to provide students with practical exposure to various industries and real-world applications of their classroom learning.

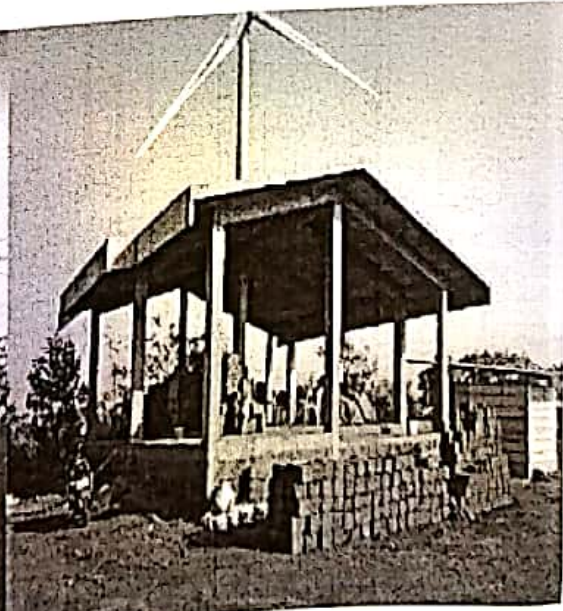

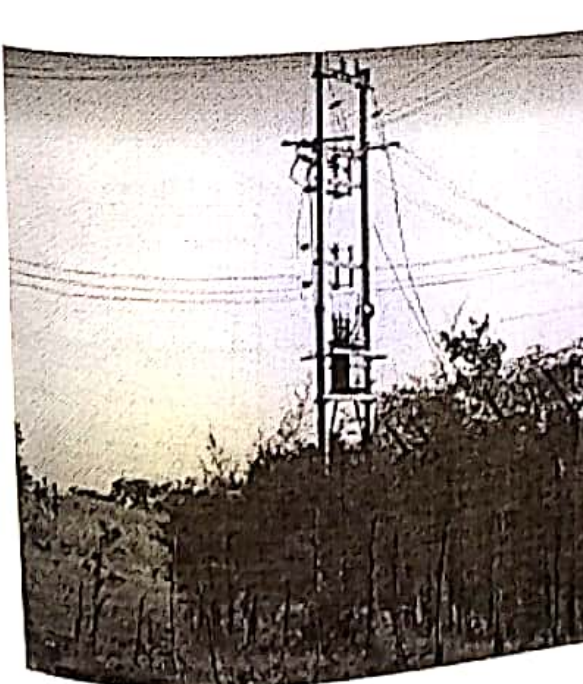

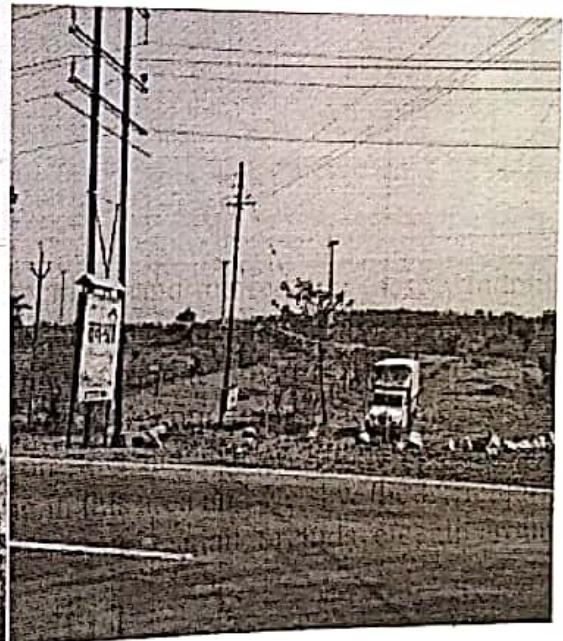

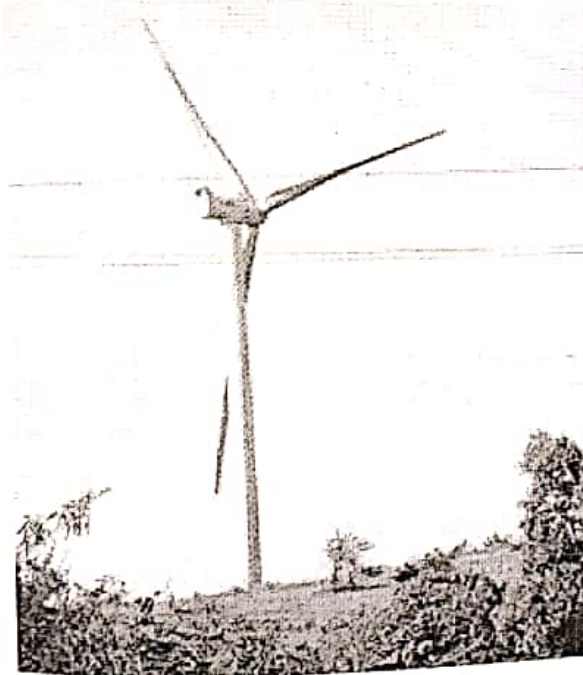

Places Visited:

1. Kale Wind Mill Project:

We all went to see the Kale Wind Mill site. This is about 40 kms from SSIET and is said to be the largest windmill farm in Asia. I am not surprised as the entire plateau has been developed as a site for setting up windmills and there are hundreds of huge windmills all around.

We drove here from our Institute, but by the time we reached here the weather had started taking a turn and dark ominous clouds had started accumulating all around. We had barely managed to take a few pictures before it started pouring. Hence I have very limited photographs of this area that I am sharing through a quick photo essay.

Set amidst lush green hills, valleys and the red soil these windmills make a beautiful sight. There are literally hundreds of wind mills all around you and on the adjoining hills, thereby making them quite a part of this landscape. I also found the movement of their blades quite hypnotic too. Standing near one of these actually gives you a perspective on how huge these things actually are. There was also some flowering happening in this area and we saw the *Utricularia*, *Eriocaulon sedgewickii*, numerous karvis, sonki, small orchids etc all around here.

technologies. The students expressed their gratitude to the management of SSIET Polytechnic College for organizing the visit and providing them with an enriching learning experience. The faculty members also thanked the industries visited for their cooperation and support in making the visit a success.

Sincerely,

Mr. Sawant Laxman

Industrial Visit Incharge (Diploma)
